

# ENERBON Sdn. Bhd.

Reg. 908507-V

... your Partner for complete customized concepts in **CDM Monitoring Automation** with **Remote Data Consolidation** ...

Concept & Design <> Project Management <> Operation & Services

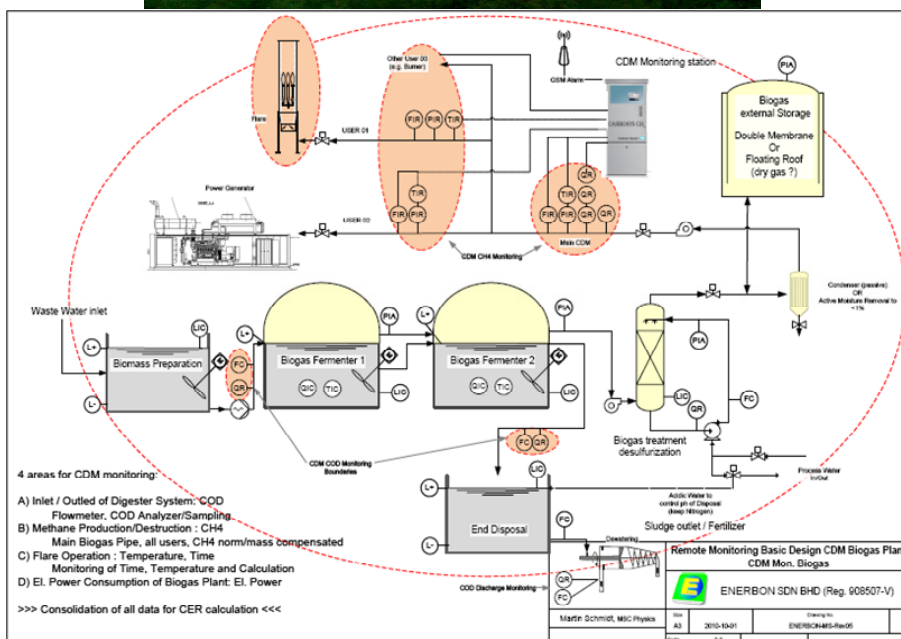

**ENERBON is specialist in Automation and CDM Monitoring Automation Solutions :**

We provides harmonized automation concepts which maximize CER's out of gas provided by any AD Biogas Process

ENERBON has the know how of all common biogas processes and most important package units, which will contribute to high performance

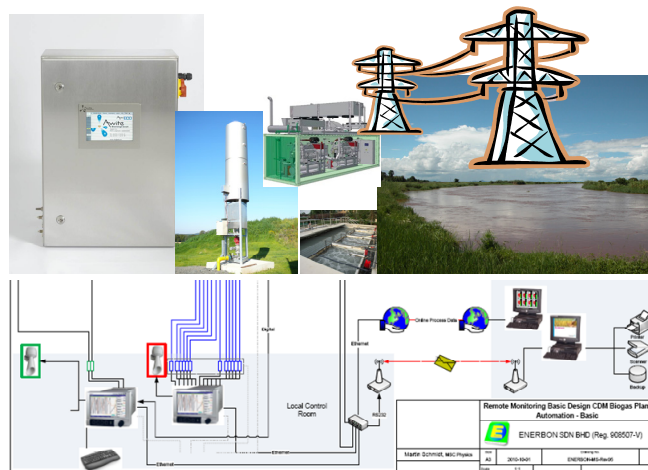

We are independent of any AD Process and can integrate Automation concepts and CDM Monitoring Solutions according customers requirements

... was founded in 2010 in Kuala Lumpur, Malaysia, out of strong market demand for complete solution and integrated concepts in the area of Renewable Energy and Waste to Energy. ENERBON combines 15 years experience in process automation and Renewable Energy applications like Biogas, Biomass and Waste to Energy, with 20 years expertise in integrated project management in transportation, conv. power plant as well as solar power plants.

**References of ENERBON as of now:**

- **Endress+Hauser**  
Multiple CDM Consultation in Biogas, Landfill, Biomass, etc. ...  
Developer of "Carbosys" CDM Monitoring Automation  
CDM Detail Application Engineering for all monitoring requirements  
Design of Remote Monitoring Automation Concept for Biogas CDM Projects
- **CST, Mistral Project**  
CDM Automation, Remote Monitoring, Process Automation Detail Design Support
- **BELL, Batu Pahat & Sri Lingga**  
CDM Automation and Remote Monitoring
- **Pure Natural Power, TH**  
2x CDM Automation

**Our Competence ... your Added Value:**

- TIME:** > Compliant CDM Monitoring Automation Solutions
- MONEY:** > Time to Market due to Efficient Project Management  
> Compliant Technology, integrated concepts into Biogas Process  
> High Availability due to CDM experienced and approved suppliers
- QUALITY:** > Traceability, Documentation and Compliant Services
- TRANSPARENT:** > Remote Data Monitoring, Audit Track Record
- SUSTAINABILITY:** > Operation with Service Concept
